# PREFACE

For the second time it has been my privilege to review the lives of the Alumni. The wonder is that out of so very many so few have gone astray. I doubt if from an equal number of names any other profession could furnish so many names of men who have run well. The men as a whole have had a fair measure of success, some more than others. Men of marked ability have not come to their own in some cases. Poor health is often the cause, an unfortunate temperament, a lack in understanding human nature, an untoward environment at start, one mistake made arousing the prejudices of men, an unfortunate marriage, all these are causes of failure. Not all seeming failures are to be counted failures.

The work involved in preparing this book is considerable. Nineteen hundred names are included in it. Information blanks were sent to all, to some for the third time without response. We then had to resort to our matriculation blanks, the conference minutes and the yearbooks of other denominations, and laboriously trace a man's career. My thanks are due to all the men who have kindly helped by furnishing data in regard to their own lives and those of their classmates. Also for the faithful clerical work of the students who have helped me in the preparation of the manuscript.

Long may the Seminary continue its work in teaching men and bringing them together to bind them in bonds of abiding friendship.

S. G. AYRES.

February 6, 1906.

# FACULTY AND INSTRUCTORS
